How to survey for reptiles

- Visit a site of your choice **once* between March and October**. This can be your garden, a local nature reserve, park or anywhere else you want to go for a walk.
*(*You can make more than one visit but you will need to fill out a separate form for each visit)*
- Spend **30 minutes visually searching**, noting any reptiles that you see. (see our ID guide for help).
- **Take photos**, especially if you are not sure of what you have seen.
- Fill in the form below and / or **record your results** online (<http://jerseybiodiversitycentre.org.je/>). Alternatively, send your form to: Reptilewatch, Natural Environment, Growth Housing and Environment, Howard Davis Farm, Trinity, JE3 5JP.
Send in your results **even if you don't see anything**.

Remember that Jersey's native reptiles are protected by law, and should not be harmed, taken or possessed, nor should their breeding or resting sites be disturbed.
